UP TO 275 KILOMETRES OF RANGE*
RAPID CHARGE: UP TO 80% IN 30 MINS**

MAXIMUM SPEED:
84 MPH

PRECONDITIONING OF
INTERIOR TEMPERATURE

** WLTP standard combined cycle. Range of 269–275 kilometres, dependent on use and driving style. **The vehicle will rapid charge at a rate of up to 100kW, depending on the power of the rapid charging station used and will take longer to charge at a lower power. Between 15-80% of the vehicle's charge in 30 minutes from a 100kW charger.*

AINS

New Citroën ë-Berlingo Van Electric and Citroën Berlingo Van both provide identical modularity, interior space and load capacity. Enjoy the additional comfort of near-silent driving with New Citroën ë-Berlingo Van Electric, as well as free access to city centres that have congestion charges in place. New ë-Berlingo Van Electric is also just as suited for journeys outside of the city, thanks to a range of up to 275 kilometres.*

ENGINES RANGING FROM
100 TO 130 HP

GEARBOX AVAILABLE

FROM 144 G
OF CO₂/KM***

FROM 54.3 MPG
(WLTP COMBINED CYCLE)

***The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors: (including but not limited to) the accessories fitted (pre and post registration), variations in weather, driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures.

ELECTRIC

New Citroën ë-Berlingo Van Electric adds to the standard levels of comfort of Berlingo Van, with the addition of a near-silent driving experience. Plus, instantly available torque ensures smooth acceleration, with no sudden jolts or vibrations whilst driving. The electric motor provides a power output of 100kW (the equivalent of 136 hp) at speeds up to 130km/h, where permitted.

Choose from three driving modes: 'Eco' optimises energy consumption by limiting overall power and energy consumption; 'Normal' works out the best balance between range and dynamic performance; 'Power' helps maintain the vehicle's performance when fully loaded.

On the centre console, there's an easy-to-use ë-Toggle, just selects Drive, Neutral or Reverse.

In addition, Brake Mode uses clever regenerative braking technology to recoup energy back into the battery, energy usually lost during braking or deceleration, further extending the range.

**8 YEARS OR 160,000 KILOMETRES
BATTERY WARRANTY FOR 70% OF ITS
ORIGINAL CHARGE CAPACITY**

DIESEL

With Citroën Berlingo Van, choose efficient BlueHDi diesel engines. This powertrain option is flexible and perfectly suited to any requirement - from stop-start city centre driving to those longer motorway journeys.

STYLE

New Berlingo Van stands out and is instantly recognisable as a Citroën commercial vehicle with its vertically angled windscreen and protective and robust front end design. Its wide sliding doors immediately demonstrate its unrivalled practicality. The rear design continues this functional character and 'van spirit' with bright, vertical rear lights.

— AVAILABLE IN 100% ELECTRIC —

SLIDING SIDE DOORS

Citroën Berlingo Van is available with one or two sliding side doors to make loading and unloading considerably easier, no matter where the vehicle is parked. Each sliding side door is 675 mm wide and 1072 mm high to accommodate large packages.

MWB

LWB

TWO LENGTHS

Citroën Berlingo Van is available in two body lengths: a standard Size MWB version at 4.40 m long and an extended Size LWB version at 4.75 m. Simply choose the length best suited to your trade and your needs.

MWB 4.40 m

LWB 4.75 m

AVAILABLE IN 100% ELECTRIC

EXCEPTIONAL LOAD VOLUME

PAYLOAD OF UP TO 1000 KG

Citroën Berlingo Van offers load volume between 3.30 m³ and 4.40 m³ (with Extenso[®] cab), depending on whether you choose the MWB or LWB version. Maximum payload ranges from 800 kg to 1000 kg. At the rear, 60/40 split rear doors open to a full 180 degrees for easy access and loading and the width between rear wheel arches ensures that you can carry up to two Euro pallets. As an intelligent option, you can also specify an Overload Indicator, a useful feature that warns you if the total payload has been exceeded.

OVERLOAD INDICATOR

LOADING PACK

LOAD SECURING RINGS

ENHANCED LED LIGHTING

DESIGNED TO MAKE YOUR DAY EASIER

Long objects are no problem, thanks to the opening load flap behind the side passenger seat in Extenso[®] cab versions. For ultimate versatility, Citroën Berlingo Van can be fitted with the Loading Pack, which includes enhanced LED lighting, 12V socket, and four extra load securing rings halfway up the load space, complementing the six rings already fitted to the floor as standard. Safe, secure loads are assured.

BERLINGO VAN	E-BERLINGO VAN		
 UP TO 1000 kg	 UP TO 800 kg	 UP TO 4.40 m³	 1.24 m
 UP TO 1.2 t	 UP TO 750 kg	 UP TO 3.44 m	 2 EURO PALETTES

AVAILABLE IN 100% ELECTRIC

EXTENSO[®] CAB

THREE SEATS PLUS FLEXIBILITY

The modular Extenso[®] cab adapts to your needs. For instance, the side passenger seat base can be lifted to accommodate longer objects from the rear up to 3.09 metres long in the MWB version, and 3.44 m in LWB.

- 1 – The Extenso® cab features three seats, ideal for when you need to carry two extra passengers.
- 2 – The central seatback can be folded down to create a mobile office, complete with a pivoting table for when you need to work on the go.

- 3 – Fold the side passenger seat up and you'll find an additional space that's ideal for transporting fragile loads in the footwell area. This also increases load volume to 3.80 m³ in MWB models, and 4.40 m³ in LWB versions.

The Extenso® cab also features a clever storage space under the central seat that can be securely padlocked.

AVAILABLE IN 100% ELECTRIC

ON-BOARD COMFORT

RELAX AT WORK

When spending any amount of time in the Citroën Berlingo Van, you'll quickly appreciate its relaxed, comfortable ride on all surfaces. Thanks in part to a high driving position, refined suspension and well-insulated interior. Inside, well designed, generously sized seats also contribute to the overall comfort and offer height and lumbar adjustment.

— AVAILABLE IN 100% ELECTRIC —

Top Box

Wireless charging

220V socket

THE MOBILE OFFICE*

TOP BOX, 220V SOCKET, WIRELESS CHARGING

Inside the Citroën Berlingo Van, you'll find a ready-made everyday workspace. Your mobile office features a secure Top Box for safely storing away laptops or tablet devices, as well as an optional 220V socket to keep them topped up on the go. There is also a USB port and a 12V socket. As part of the Extenso® cab, working on the move is easier still thanks to the pivoting writing table, which you can use simply by folding down the central seatback.

** Dependent on version.*

 AVAILABLE IN 100% ELECTRIC

SURROUND REAR VISION

Transforming visibility as you drive and during manoeuvres, the Surround Rear Vision system is an innovation you'll appreciate every day. With a 5" colour screen placed in the rearview mirror location, the system uses two cameras to give you three different views of your immediate surroundings in real-time.

- 1 – A clear view of your surroundings behind the vehicle whilst driving.
- 2 – Images of the passenger side surroundings to eliminate the blind spot on your left-hand side.
- 3 – The reversing camera to see the area behind you whilst manoeuvring in reverse gear.

*Head-Up Display is not available within the Irish range.
Available on Enterprise Vision models*

ELECTRIC POWER: SIMPLE TO USE

Hover your mouse cursor over the image to find out more 

New Citroën ë-Berlingo Van electric is simple to charge at home and out on the road. Three types of battery charging are possible, accompanied by a complete range of practical services such as preconditioning of the interior temperature and deferred charging. The electric charging flap is located at the rear of the vehicle on the left-hand side and incorporates an LED light sequence that shows the current stage of charging or when deferred charging is selected.

ELECTRIC INFORMATION AT YOUR FINGERTIPS

New Citroën ë-Berlingo Van electric has been designed with a singular priority in mind: to ensure living with an electric van is simple. The driver's display, situated behind the steering wheel, displays the battery charge status and the power consumption of onboard electrical equipment such as heating and air conditioning.

In addition, the central 8" touchscreen also provides a range of information in the Energy section. This section includes a range of tabs to choose from: current energy flow, battery charge level, consumption statistics and details of deferred charging.

CHARGING OPTIONS

There are a number of flexible charging options for your New Citroën ë-Berlingo Van Electric. Charging via a Wall Box or a Rapid Charging terminal are amongst the most rapid.

A Wall Box can be installed at your home or workplace. A full charge takes approximately 7.5 hours using a 7.4 kW charge point, or five hours using a 11 kW charge point (with optional 11 kW On Board Charger).

A 100 kW rated Rapid (DC) Charger, commonly found at a service station, can deliver an 80% charge in approximately 30 minutes. (Cables for these chargers are tethered to the charge point).

Whilst it is possible to charge your New Citroën ë-Berlingo Van Electric via a domestic 13A single phase AC supply, it only offers a limited speed, with a full charge taking approximately 31 hours. Because of this, Citroën Ireland does not recommend this as a regular method of charging. It is possible to purchase a domestic charging cable as an accessory from your local Citroën Retailer for occasional charging from a 3-pin socket.

(1) Figures shown are for comparison purposes only; you should only compare these fuel consumption and CO₂ figures with other cars tested using the same technical standard. The fuel consumption you achieve, and CO₂ produced, in real world conditions will depend upon a number of factors, including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO₂ figures. The CO₂ figures shown are NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These NEDCeq figures are based on the outgoing test cycle and will be used to calculate tax for the first registration. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted.

DIMENSIONS

Values in millimetres.

With the added reassurance of a warranty, routine servicing and maintenance, as well as 24-hour roadside assistance, you are protected.

- **CITROËN WARRANTY**

Every new Citroën van has the benefit of a 3 year* warranty package, plus a 12 year anti-perforation** warranty and a 2 year paint warranty.

- **CITROËN ASSIST**

Free Phone 1800 33 33 00. From outside Ireland call 00 353 1 63 43 030. In response to a free telephone call 1800333300. Citroën Assistance brings rapid roadside assistance to you in the event of a breakdown. For new vehicles it comes free of charge for the duration of the warranty and operates 24 hours a day in Ireland and Europe. Services include nationwide recovery for vehicles and passengers, a home call service and replacement vehicle. For Citroën vehicles, cover includes manufacturing defects only. T&C's apply.

* 3 year warranty / 100,000km applies to all Citroën commercial vehicles. Please contact your local dealer for further information.

** Against all internal to external perforation to bodywork or underbody.

- **CITROËN FINANCE**

Depending on whether you are a private or business customer, there are a range of different finance options available to you to help you purchase or lease a brand new Citroën. For further information, please contact your Citroën Dealer.
